ADMIN GUIDE

SA & SDC Scorecard
Monthly operating procedure for admins

Admin manual: data entry, uploads, publishing, user management, for both programmes

BNI TNT Region · Tirunelveli, Nagercoil, Tuticorin, Tenkasi, Marthandam

Version	1.1
Date	21 October 2026
Applies to	BNI TNT admin team (3 admins + ED)
Website	https://sa.bnitnt.in (Admin tab)
Owner	Mohamed Riaz, Executive Director, BNI TNT

1. Purpose and roles

The SA Scorecard app replaces the monthly Google Sheet. Admins enter each month's data, the app computes scores, bands, ranks and payouts, and SAs see only their own results after the month is published. This guide is the complete monthly procedure.

Role	Can do
Admin	Open months, upload BNI Connect exports, enter manual inputs, sync Jotform, publish/unpublish, manage users and settings, see all 14 scores.
SA	See own scorecard, rank and region average for published months only.
SDC	Same, on the Support DC tab. Scored on the SDC KPIs (section 9).

The admin console has an **SA | SDC** switch at the top right. Everything on the Months page belongs to the programme selected there; each month is opened and published separately per programme. Sections 3 to 8 describe the SA month; section 9 describes the SDC month.

> **Golden rules.** (1) Never publish before every chapter has a Member Score, Retention %, LTRT and Jotform status. (2) Upload Chapter Statistics before the Training Report (training % needs the member count). (3) Published months are frozen; unpublish, fix, publish again.

2. Logging in

1. Open **https://sa.bnitnt.in**, click the **Admin** tab, sign in with your email and password.
2. Change your password on first login: Users → your name → **Set password**.
3. Three menus: **Months** (monthly work), **Settings** (commission, thresholds, online event list), **Users** (SAs, PINs, admins).

3. Monthly procedure (first week of each month, for the previous month)

Step 1: Export four files from BNI Connect

Report	BNI Connect path and parameters	Files
Chapter Statistics	Reports → Region Meeting Statistics → **Chapter Statistics**. Region: Tirunelveli, then Nagercoil & Tuticorin. **From = To = the month** (e.g. 10/2026). Export to Excel.	2 (one per region)
Member Training Report	Reports → **Region Member Training Report**. Region: both, one at a time. All events selected. From = 1st of the month, To = last day of the month. Show: **Members who have attended**. Export to Excel.	2 (one per region)

The files download as .xls. Upload them exactly as downloaded; do not open and re-save in Excel. A file covering more than one month is rejected.

Step 2: Upload

1. **Months** → drop all four files on the upload box (or click it and select). The app reads the month and the region from each file and opens that month automatically.
2. Order matters: Chapter Statistics first, then Training. If you drop all four together, the app handles them in sequence; if a training file shows "no member count yet", re-upload that training file after the Chapter Statistics.
3. Check the upload log: "8 chapters updated" (Tirunelveli) and "6 chapters updated" (Nagercoil & Tuticorin). A chapter listed as "not found" means its name in BNI Connect changed; tell the ED.

What the uploads fill in: **Members** (Mem Avg), **1-2-1 per member**, **Online %** and **Offline %** (unique members trained ÷ members; the split follows the online event list in Settings).

Step 3: Sync Jotform

1. Click **Sync Jotform**. The app pulls that month's "BNI Chapter Visit Report" submissions and ticks every chapter where the submitter's name matches the SA's *Jotform name* (Users page).
2. Read the result list. "Submitted by X, no match for Y" means the SA wrote their name differently: either fix the Jotform name in Users and

sync again, or set the Jotform cell to Done by hand. Manual changes are kept on later syncs.

Step 4: Enter the manual inputs (per chapter)

Column	Source	Rule
Member score	Monthly Member Traffic Light report	The SA's own score as a member (0 to 100).
Retention %	3+1 Traffic Lights report	Chapter 1st-year retention for the month, as a number (78 for 78%).
LTRT	LTRT / DCRT attendance sheet (also in BNI Connect)	Attended / Not attended. If no LTRT or DCRT was scheduled that month, mark Attended so nobody is penalised.
New	BNI Connect new member report / payment records	New members whose payment was received **in that month**.
Renewals	Payment records	Renewals **paid in that month**, regardless of renewal date. (A 1 Nov renewal paid on 15 Oct counts in October.)

Cells save when you leave them. Score, band, payout and rank update immediately. You may also override Online %, Offline % and 1-2-1 if an upload was wrong; the override is kept until the next upload of that report.

Step 5: Review and publish

1. Every row must have a Member score, Retention %, LTRT and Jotform value. A blank counts as zero and will be questioned.
2. Check the region average and the band spread look sane against last month.
3. Click **Publish month**. SAs see it instantly. Payout figures are now frozen for that month.
4. Found a mistake after publishing? **Unpublish** → correct → **Publish** again. Tell the affected SA.

> **Time budget:** about 45 minutes a month once the four files are exported: 5 min uploads, 2 min Jotform, 25 min manual inputs, 10 min review.

4. Users

Task	How
Reset an SA's PIN	Users → the SA → **Set PIN** (4 to 8 digits). Share it privately. All new SAs start on 1234 and must be reset before they get the link.
Fix the Jotform name	Users → **Jotform name**. Enter the name exactly as the SA types it on the visit form.
Replace a chapter's SA	Users → **Replace a chapter's SA**: chapter, new name, PIN, "from month". The old SA is deactivated (history kept), the new one starts fresh. Draft months from that month move to the new SA.
SA covers two chapters	Give the person a second login on the second chapter (Replace or Add). One person, two scorecards.
Add an admin	Users → **Add admin** (name, email, password of 8+ characters).
Deactivate / activate	Users → Deactivate. The person can no longer sign in; nothing is deleted.

5. Settings

Setting	Current	Notes
Membership fee	₹49,040	Per member, new or renewal. Change here when the team decides; draft months recalculate at once, published months keep their payout.
Commission %	2.5%	Per member: ₹1,226.
1-2-1 threshold	8.66 per member per month	= 2 per week × 4.33 weeks.
Mentoring KPI	Off	Turn on when the mentoring app provides the %. Score becomes out of 100.

Online training events	Admin-maintained list	Tick the event types that count as online. Everything else is offline. Only affects the split shown; the score uses the combined %.
Jotform form ID	261212882805052	BNI Chapter Visit Report.

6. Scoring reference

#	KPI	Where the number comes from	Scoring	Max
1	**Your own Member Score**	Your Traffic Light score as a member (admin enters monthly)	80 or more = 10 pts 70 to 79 = 5 pts Below 70 = 0	10
2	**Training Attendance**	BNI Connect Member Training Report: unique members of your chapter who attended any training in the month, divided by chapter member count (Online + Offline combined)	20% or more = 20 pts 15% to 19.9% = 15 pts 10% to 14.9% = 10 pts Below 10% = 0	20
3	**1st-Year Retention**	Chapter's first-year retention % (admin enters from the 3+1 Traffic Lights report)	75% or more = 25 pts 70% to 74.9% = 15 pts Below 70% = 0	25
4	**1-2-1 Activity**	BNI Connect Chapter Statistics: "1-2-1 Per Member" for the month	8.66 or more per member per month (= 2 per week) = 10 pts Below = 0	10

5	**LTRT / DCRT Attendance**	Admin marks attendance	Attended = 5 pts Not attended = 0	5
6	**Chapter Visit Report (Jotform)**	Your monthly submission on the BNI Chapter Visit Report form, matched to your name automatically	Submitted = 10 pts Not submitted = 0	10
7	**Mentoring Completion**	Paused until the mentoring app is live	Not scored for now	(20)

Total: 80 raw points, scaled to 100. Your score on the dashboard = raw points ÷ 80 × 100. Example: 60 raw points shows as 75.

Score (out of 100)	Band	Meaning	Commission multiplier
85 to 100	🏆 **Gold**	Exceptional	1.00× (full commission)
70 to 84.9	✅ **Green**	On Track	0.80×
55 to 69.9	🟡 **Amber**	Needs Improvement: coaching conversation	0.60×
40 to 54.9	🔴 **Red**	Underperforming: formal review	0.35×
Below 40	⚠️ **Review**	At Risk: improvement plan	0.15×

Payout

Your monthly payout has two parts: how many members paid in your chapter that month, and which band you landed in.

Step	Calculation
1. Members paid	New member inductions + renewals **paid in that month** (a renewal due 1 Nov but paid on 15 Oct counts in October)

2. Base commission	Members paid × 2.5% of ₹49,040 = Members paid × ₹1,226
3. Band multiplier	Base commission × your band multiplier (1.00 / 0.80 / 0.60 / 0.35 / 0.15)

Example: 1 new member + 3 renewals paid in October = 4 members × ₹1,226 = ₹4,904 base. Score 75 (Green, 0.80×) pays ₹3,923. The same month at Gold would pay ₹4,904. At Red it pays ₹1,716. The band costs you real money.

The fee and percentage are set by the regional office and may be revised. The dashboard always shows the current figures.

7. Troubleshooting

Symptom	Cause and fix
"Report covers X to Y. Export one month at a time"	From and To span more than one month. Re-export with the same month in both.
"Not a BNI Connect export"	The file was opened and re-saved in Excel, or the wrong file was chosen. Download again from BNI Connect and upload the original.
Training shows 0% for a region	Chapter Statistics for that region wasn't uploaded first, so there is no member count. Upload it, then re-upload the training file.
"Month is already published"	Unpublish the month before re-uploading or syncing.
Jotform shows "no match"	Name mismatch. Fix the SA's Jotform name in Users, sync again, or set Done manually.
SA says "Wrong PIN"	Reset it in Users. Make sure they picked the right chapter on the login screen.
"Chapters not found in the app"	Chapter name changed in BNI Connect. Inform the ED; the chapter list is updated in Settings.
Anything else	Vercel project "bni-tnt-sa-scorecard" → Logs show the error. Send a screenshot to the ED.

9. The SDC month (Support Director Consultants)

Switch the console to **SDC**. The SDC month is a separate page with its own publish button, but it shares the chapter list, the Chapter Statistics upload and the New / Renewals counts with the SA month.

Step 1: Open the month

Months → pick the month → **Open month**. The app creates one row per chapter and the **weekly grid**: one cell per chapter meeting date (Ainthinai Tue, Bamboo Kottai Wed, Cmy Veli Thu, and so on; meeting days are in Settings).

Step 2: Every Friday evening during the month

1. Click **Sync Jotform**. Tele-bridge submissions are matched to the meeting week by chapter and meeting date and ticked **TB** ✓. Future weeks stay blank.
2. In the weekly grid, tick **PALMS** ✓ for every chapter whose PALMS came in on time this week, **PALMS** ✕ for the rest. Keep the PALMS screenshot in the office records as proof.
3. If a chapter did not meet this week (holiday), click **no meeting** under that cell. The week drops out of both denominators.
4. A wrong automatic tick can be clicked to change it; manual ticks survive later syncs.

Step 3: First week of the next month

Column	Source	Rule
Net add	Chapter Statistics upload (both regions), this month minus last month	Filled automatically once both months have a member count. Type a number to override with the exact joiners-minus-leavers; clear the cell to go back to the derived figure.
Traffic light	Upload the **All India Chapter Traffic Lights** .xlsx on the SDC month page	GREEN / AMBER / RED per chapter is read from the file (chapter score shown under it). Pick a value by hand to override.
Renewal %	3+1 Traffic Lights report	Chapter's **overall** retention % as published (82 for 82%). Leave blank only if the report has no figure.

Member score	Monthly Member Traffic Light report	The SDC's own score as a member.
Visit 24h	Sync Jotform	Done only if the SDC's Chapter Visit Report was submitted on the visit day or the next day. The sync shows late submissions; override by hand if the office accepts a reason.
LTRT	Attendance sheet	Attended / Not attended.
Paid	Read-only	New + Renewals typed on the **SA** month for the same chapter. Enter them there once; both payouts use them.

The Chapter Statistics upload can be dropped on either month page; it updates both programmes. If the SA month is already published, only the SDC member counts are updated.

Step 4: Review and publish

1. No week should be left unticked ("4 unticked" under TB or PALMS means the grid is incomplete; a blank week scores 0).
2. Every row needs a Traffic light, Renewal %, Member score, Visit and LTRT value.
3. **Publish month**. SDCs see it instantly. Unpublish → fix → Publish to correct.

SDC users and settings

- Users page has a **Support Director Consultants** table with the same Set PIN, Jotform name, Replace and Deactivate actions as SAs. The Jotform name is matched against "Visited By" on the visit form.
- Settings: **SDC commission %** (7.5% at launch, ₹3,678 per member paid), **Tele-bridge form ID** (221121498823050) and **chapter meeting days**.

SDC scoring reference

#	KPI	Where the number comes from	Scoring	Max

1	**Chapter Net Growth**	This month's member count minus last month's (BNI Connect Chapter Statistics "Mem Avg"). Admin can override with the exact joiners-minus-leavers figure.	+2 or more = 20 pts +1 = 10 pts 0 or negative = 0	20
2	**All India Traffic Light**	Your chapter's colour on the monthly All India Chapter Traffic Lights report (uploaded by admin)	GREEN = 15 pts AMBER or RED = 0	15
3	**Overall Renewal Rate**	Chapter's overall retention % as published in the monthly 3+1 Traffic Lights (admin enters)	80% or more = 20 pts 70% to 79.9% = 10 pts Below 70% = 0	20
4	**Your own Member Score**	Your Traffic Light score as a member (admin enters)	80 or more = 10 pts 70 to 79 = 5 pts Below 70 = 0	10
5	**Weekly Tele-Bridge call with LT**	Your weekly "Support DC Tele-bridge Call" Jotform submissions, matched to each chapter meeting date automatically	Weeks done ÷ meetings held × 10	10
6	**PALMS submitted on time**	Admin ticks each meeting week on Friday evening	Weeks on time ÷ meetings held × 10	10
7	**Chapter Visit within 24 hours**	Your BNI Chapter Visit Report on Jotform, matched to your name; counts only if submitted on the visit day or the next day	Done = 10 pts Not done or late = 0	10

8	**LTRT / DCRT attendance**	Admin marks attendance	Attended = 5 pts Not attended = 0	5

Total: 100 points. "Meetings held" is the number of your chapter's meeting weekdays in the month (a Tuesday chapter has 4 or 5), minus any week the office marks as "no meeting" (holiday). A Tuesday chapter with 5 meetings and 4 calls done scores 4 ÷ 5 × 10 = 8.0.

Your monthly payout has two parts: how many members paid in your chapter that month, and which band you landed in.

Step	Calculation
1. Members paid	New member inductions + renewals **paid in that month** in your chapter (the same count the office enters for the SA programme)
2. Base commission	Members paid × 7.5% of ₹49,040 = Members paid × ₹3,678
3. Band multiplier	Base commission × your band multiplier (1.00 / 0.80 / 0.60 / 0.35 / 0.15)

Example: 1 new member + 3 renewals paid in October = 4 members × ₹3,678 = ₹14,712 base. Score 75 (Green, 0.80×) pays ₹11,770. The same month at Gold pays ₹14,712. At Red it pays ₹5,149.

The fee and percentage are set by the regional office and may be revised. The dashboard always shows the current figures.

10. Data rules worth remembering

- Training counts **unique members**. A member attending three workshops counts once.
- 1-2-1 is per member per **month**, straight from BNI Connect. The old sheet's "2 per week" entries were never real; do not type a number by hand unless the upload failed.
- Payout counts members by **payment month**, not by renewal date.
- History belongs to the person, not the chapter. A new SA starts with a blank history.
- The Google Sheet is now an archive. The app is the record.

- SDC net growth is **monthly** (this month's count minus last month's), not the trailing "Growth" figure printed on the Traffic Lights report. The old SDC sheet used the trailing figure, which is why June to September net adds look large.
- Tele-bridge weeks are matched by the **meeting date** typed on the form, not by the date the form was submitted.
