SA GUIDE

Support Ambassador Scorecard
How it works and how to score high

User guide for Support Ambassadors

BNI TNT Region · Tirunelveli, Nagercoil, Tuticorin, Tenkasi, Marthandam

Version	1.0
Date	21 October 2026
Applies to	All BNI TNT Support Ambassadors
Website	https://sa.bnitnt.in
Prepared by	Mohamed Riaz, Executive Director, BNI TNT

1. What this is

The SA Scorecard is your personal performance page. Every month the regional office publishes your score across six KPIs, your band, your rank among the 14 Support Ambassadors, the region average, and the commission you earned. It replaces the old Google Sheet. Nothing is hidden: every point is explained on the page, and every point tells you what to do next month.

> **Why it exists.** An SA is a member first and a chapter's support system second. The scorecard rewards exactly the things that make a chapter healthy: members trained, members retained, 1-2-1s happening, and you showing up. Score high and the chapter grows. There is no trick to it.

2. Logging in

1. Open **https://sa.bnitnt.in** on your phone or laptop. Save it to your home screen.
2. On the **Support Ambassador** tab, pick your chapter and enter your PIN.
3. Forgot your PIN? Message the BNI TNT office. They reset it in seconds. Never share your PIN.

If you support two chapters, you have two logins, one per chapter. Each chapter has its own scorecard and its own rank.

3. Reading your scorecard

Section	What it shows
Month selector	Top right. Switch between published months. The latest month opens by default.
Score ring	Your score out of 100, your band, your rank (#1 to #14), the region average, and raw points (for example 60/80).
Payout	Your commission for the month with the full working: members paid × ₹1,226 × band multiplier.
KPI breakdown	Each KPI with your actual value and the points earned out of the maximum. Red zero means you left points on the table.

How to reach the next band	The exact actions, biggest gain first, that take you to the next band. Start here every month.
Your trend	Your score month by month against the region average and the Gold line at 85.

Months up to September 2026 are marked "legacy": they were scored on the old sheet (out of 100 with Mentoring) and show no payout. From October 2026 the new system applies.

4. The scoring system

#	KPI	Where the number comes from	Scoring	Max
1	**Your own Member Score**	Your Traffic Light score as a member (admin enters monthly)	80 or more = 10 pts 70 to 79 = 5 pts Below 70 = 0	10
2	**Training Attendance**	BNI Connect Member Training Report: unique members of your chapter who attended any training in the month, divided by chapter member count (Online + Offline combined)	20% or more = 20 pts 15% to 19.9% = 15 pts 10% to 14.9% = 10 pts Below 10% = 0	20
3	**1st-Year Retention**	Chapter's first-year retention % (admin enters from the 3+1 Traffic Lights report)	75% or more = 25 pts 70% to 74.9% = 15 pts Below 70% = 0	25
4	**1-2-1 Activity**	BNI Connect Chapter Statistics: "1-2-1 Per Member" for the month	8.66 or more per member per month (= 2 per week) = 10 pts Below = 0	10
5	**LTRT / DCRT Attendance**	Admin marks attendance	Attended = 5 pts Not attended = 0	5
6	**Chapter Visit Report (Jotform)**	Your monthly submission on the BNI Chapter Visit Report form, matched to your name automatically	Submitted = 10 pts Not submitted = 0	10

7	**Mentoring Completion**	Paused until the mentoring app is live	Not scored for now	(20)

Total: 80 raw points, scaled to 100. Your score on the dashboard = raw points ÷ 80 × 100. Example: 60 raw points shows as 75.

Bands and commission

Score (out of 100)	Band	Meaning	Commission multiplier
85 to 100	🏆 **Gold**	Exceptional	1.00× (full commission)
70 to 84.9	✅ **Green**	On Track	0.80×
55 to 69.9	🟡 **Amber**	Needs Improvement: coaching conversation	0.60×
40 to 54.9	🔴 **Red**	Underperforming: formal review	0.35×
Below 40	⚠️ **Review**	At Risk: improvement plan	0.15×

5. Your payout

Your monthly payout has two parts: how many members paid in your chapter that month, and which band you landed in.

Step	Calculation
1. Members paid	New member inductions + renewals **paid in that month** (a renewal due 1 Nov but paid on 15 Oct counts in October)
2. Base commission	Members paid × 2.5% of ₹49,040 = Members paid × ₹1,226
3. Band multiplier	Base commission × your band multiplier (1.00 / 0.80 / 0.60 / 0.35 / 0.15)

Example: 1 new member + 3 renewals paid in October = 4 members × ₹1,226 = ₹4,904 base. Score 75 (Green, 0.80×) pays ₹3,923. The same

month at Gold would pay ₹4,904. At Red it pays ₹1,716. The band costs you real money.

The fee and percentage are set by the regional office and may be revised. The dashboard always shows the current figures.

6. How to score high: the playbook

Work the KPIs in this order. The first three are entirely in your hands and together are worth 25 raw points, the difference between Red and Gold.

6.1 Chapter Visit Report on Jotform: 10 points, 10 minutes

- Submit the BNI Chapter Visit Report form once every month, before the last day of the month. The system picks it up automatically.
- Write your name on the form exactly as the office has it on record ("Visited By" / "Name"). A different spelling does not match and you lose the 10 points.
- In September 2026, 9 of 14 SAs missed this. It was the single cheapest 10 points in the region.

6.2 LTRT / DCRT attendance: 5 points

- Be in the room. If you cannot attend, inform the office before the meeting. Not attending is 0, and it is noticed.

6.3 Your own Member Score: 10 points

- Your own Traffic Light score must be 80 or more. You cannot ask members to do what you don't do.
- Attendance, referrals given, visitors invited, 1-2-1s, CEUs, TYFCB: the same six things you coach members on.

6.4 1-2-1 Activity: 10 points, needs 8.66 per member per month

- This is 2 per member per week. In September only one chapter in the region cleared it. It is hard, and it is the most important number in BNI.
- Run a 1-2-1 challenge with the Membership Committee: weekly leaderboard in the chapter group, recognition at the meeting.
- Pair every new member with 4 scheduled 1-2-1s in their first month. New members pull the chapter average up fast.
- Make sure members **record** their 1-2-1s in BNI Connect. Unrecorded 1-2-1s do not exist for scoring.

6.5 Training Attendance: 20 points, needs 20% of members

- Counted as unique members who attended any BNI training in the month, divided by chapter size. A 50-member chapter needs 10 different members in training that month.
- Book MSP for every new member in their induction month. That alone is 2 to 4 members.

- Push one workshop per month (Feature Presentation, Referral Skills, Power Team) and get the Education Coordinator to announce it twice.
- Online trainings count the same as offline. They are the easiest way to reach 20%.

6.6 1st-Year Retention: 25 points, the biggest prize

- Members who leave in year one are members nobody looked after. Your job is to know every first-year member by name and by renewal date.
- 90 days before renewal: a 1-2-1 with you. 60 days: check their referral and TYFCB numbers with them. 30 days: renewal conversation with the Membership Committee.
- At 75% you get the full 25 points. At 69% you get nothing. The gap between those two is usually one or two members.

> **A realistic Gold month.** Member score 80+ (10) + 20% trained (20) + retention 75%+ (25) + LTRT (5) + Jotform (10) = 70 raw = 87.5 on the dashboard = Gold, even with the 1-2-1 target missed. Gold is reachable without a perfect month.

7. The monthly cycle

When	What happens
During the month	You work the chapter. Submit the Jotform visit report. Record 1-2-1s. Push training.
1st week of next month	Office pulls BNI Connect reports, enters the manual inputs, checks and publishes the month.
After publishing	Your scorecard updates. Read "How to reach the next band" and plan the month.
Payout	Monthly, on the published score.

8. Questions

Question	Answer
A number looks wrong	Message the office with the month and KPI. Uploads can be checked and a month can be corrected and re-published.

I changed chapters	Your history stays with you. If you were newly appointed, your scorecard starts from your first month.
Can I see other SAs' scores?	No. You see your rank and the region average only.
Why is Mentoring not scored?	It is paused until the mentoring app is live. The score is out of 80 and scaled to 100 so bands stay the same.
