SDC GUIDE

Support DC Scorecard
How it works and how to score high

User guide for Support Director Consultants

BNI TNT Region · Tirunelveli, Nagercoil, Tuticorin, Tenkasi, Marthandam

Version	1.0
Date	21 October 2026
Applies to	All BNI TNT Support Director Consultants
Website	https://sa.bnitnt.in (Support DC tab)
Prepared by	Mohamed Riaz, Executive Director, BNI TNT

1. What this is

The SDC Scorecard is your personal performance page. Every month the regional office publishes your score across eight KPIs, your band, your rank among the 14 Support DCs, the region average, and the commission you earned. It replaces the SDC Google Sheet. Every point is explained on the page, and every point tells you what to do next month.

> **Why it exists.** A Support DC owns the health of a chapter: is it growing, is it GREEN, are members renewing, is the Leadership Team being coached every week. The scorecard rewards exactly those things. Nothing on it is outside your influence.

2. Logging in

1. Open **https://sa.bnitnt.in** on your phone or laptop. Save it to your home screen.
2. Tap the **Support DC** tab, pick your chapter and enter your PIN.
3. Forgot your PIN? Message the BNI TNT office. They reset it in seconds. Never share your PIN.

If you support two chapters, you have two logins, one per chapter. Each chapter has its own scorecard and its own rank.

3. Reading your scorecard

Section	What it shows
Month selector	Top right. Switch between published months. The latest month opens by default.
Score ring	Your score out of 100, your band, your rank (#1 to #14), the region average and raw points.
Payout	Your commission for the month with the full working: members paid × ₹3,678 × band multiplier.
KPI breakdown	Each KPI with your actual value and the points earned out of the maximum. The two weekly KPIs show every meeting date with a tick or a cross, so you can see exactly which week was missed.
How to reach the next band	The exact actions, biggest gain first, that take you to the next band. Start here every month.

Your trend	Your score month by month against the region average and the Gold line at 85.

Months June to September 2026 are marked "legacy": they were scored on the old sheet and show no payout. From October 2026 the new system applies.

4. The scoring system

#	KPI	Where the number comes from	Scoring	Max
1	**Chapter Net Growth**	This month's member count minus last month's (BNI Connect Chapter Statistics "Mem Avg"). Admin can override with the exact joiners-minus-leavers figure.	+2 or more = 20 pts +1 = 10 pts 0 or negative = 0	20
2	**All India Traffic Light**	Your chapter's colour on the monthly All India Chapter Traffic Lights report (uploaded by admin)	GREEN = 15 pts AMBER or RED = 0	15
3	**Overall Renewal Rate**	Chapter's overall retention % as published in the monthly 3+1 Traffic Lights (admin enters)	80% or more = 20 pts 70% to 79.9% = 10 pts Below 70% = 0	20
4	**Your own Member Score**	Your Traffic Light score as a member (admin enters)	80 or more = 10 pts 70 to 79 = 5 pts Below 70 = 0	10
5	**Weekly Tele-Bridge call with LT**	Your weekly "Support DC Tele-bridge Call" Jotform submissions, matched to each chapter meeting date automatically	Weeks done ÷ meetings held × 10	10
6	**PALMS submitted on time**	Admin ticks each meeting week on Friday evening	Weeks on time ÷ meetings held × 10	10

7	**Chapter Visit within 24 hours**	Your BNI Chapter Visit Report on Jotform, matched to your name; counts only if submitted on the visit day or the next day	Done = 10 pts Not done or late = 0	10
8	**LTRT / DCRT attendance**	Admin marks attendance	Attended = 5 pts Not attended = 0	5

Total: 100 points. "Meetings held" is the number of your chapter's meeting weekdays in the month (a Tuesday chapter has 4 or 5), minus any week the office marks as "no meeting" (holiday). A Tuesday chapter with 5 meetings and 4 calls done scores 4 ÷ 5 × 10 = 8.0.

Bands and commission

Score (out of 100)	Band	Meaning	Commission multiplier
85 to 100	🏆 **Gold**	Exceptional	1.00× (full commission)
70 to 84.9	✅ **Green**	On Track	0.80×
55 to 69.9	🟡 **Amber**	Needs Improvement: coaching conversation	0.60×
40 to 54.9	🔴 **Red**	Underperforming: formal review	0.35×
Below 40	⚠️ **Review**	At Risk: improvement plan	0.15×

5. Your payout

Your monthly payout has two parts: how many members paid in your chapter that month, and which band you landed in.

Step	Calculation

1. Members paid	New member inductions + renewals **paid in that month** in your chapter (the same count the office enters for the SA programme)
2. Base commission	Members paid × 7.5% of ₹49,040 = Members paid × ₹3,678
3. Band multiplier	Base commission × your band multiplier (1.00 / 0.80 / 0.60 / 0.35 / 0.15)

Example: 1 new member + 3 renewals paid in October = 4 members × ₹3,678 = ₹14,712 base. Score 75 (Green, 0.80×) pays ₹11,770. The same month at Gold pays ₹14,712. At Red it pays ₹5,149.

The fee and percentage are set by the regional office and may be revised. The dashboard always shows the current figures.

6. How to score high: the playbook

Work the KPIs in this order. The first four are entirely in your hands and together are worth 35 points, the difference between Red and Gold.

6.1 Tele-Bridge call every week: 10 points

- After every chapter meeting, hold the tele-bridge call with the Leadership Team and submit the **Support DC Tele-bridge Call** form the same day. Pick the right chapter and the right **meeting date** on the form: the app matches your submission to that meeting week.
- Two submissions for the same week count once. A missed week cannot be made up later.
- If the chapter did not meet (holiday), tell the office so the week is marked "no meeting" and does not count against you.

6.2 PALMS on time every week: 10 points

- Chase the Secretary/Treasurer until PALMS is in on time. The office ticks each week on Friday evening. Late is the same as missing.

6.3 Chapter Visit Report within 24 hours: 10 points

- Visit the chapter at least once in the month and submit the BNI Chapter Visit Report **on the day of the visit or the next day**. Later than that scores 0, even if the visit happened.
- Write your name on the form exactly as the office has it on record ("Visited By"). A different spelling does not match.

6.4 LTRT / DCRT attendance: 5 points

- Be in the room. If you cannot attend, inform the office before the meeting.

6.5 Your own Member Score: 10 points

- Your own Traffic Light score must be 80 or more. You cannot ask a chapter to go GREEN while you are AMBER.

6.6 Chapter GREEN on All India Traffic Lights: 15 points

- GREEN is 70+ on the BNI Traffic Lights. The six components are the same for every chapter: size, growth, retention, referrals per member, visitors, attendance.
- Read your chapter's Path to Green report every month and work the weakest component with the Leadership Team.

6.7 Chapter Net Growth: 20 points

- +2 members in a month is the full 20. +1 is 10. Flat or negative is 0, however many visitors came.
- Growth is inductions minus drops. Work both ends: a visitor pipeline with the Visitor Host team, and a renewal conversation 90 days out with every member due.

6.8 Overall Renewal Rate 80%+: 20 points

- This is the chapter's overall retention figure on the 3+1 Traffic Lights, a rolling number. It moves slowly, so every renewal saved this month keeps paying for a year.
- Know every member's renewal date. 90 days before: a 1-2-1 with you. 60 days: check their numbers with them. 30 days: renewal conversation with the Membership Committee.

> **A realistic Gold month.** Tele-Bridge every week (10) + PALMS every week (10) + visit report within 24 h (10) + LTRT (5) + member score 80+ (10) + chapter GREEN (15) + net +2 (20) = 80 = Green. Add renewal rate 70%+ (10) and you are at 90, Gold. The weekly disciplines alone are 35 points.

7. The monthly cycle

When	What happens
Every meeting week	Tele-bridge call and form. PALMS chased. The office ticks the week on Friday.
During the month	Chapter visit and report within 24 hours. LTRT / DCRT.
1st week of next month	Office uploads BNI Connect and Traffic Lights reports, enters renewal rate and member scores, checks and publishes the month.
After publishing	Your scorecard updates. Read "How to reach the next band" and plan the month.
Payout	Monthly, on the published score.

8. Questions

Question	Answer

A week shows a cross but I did the call	Check the Tele-bridge form: was the chapter and meeting date right? Message the office with the submission date; they can tick it by hand.
A number looks wrong	Message the office with the month and KPI. A month can be corrected and re-published.
I changed chapters	Your history stays with you. If you were newly appointed, your scorecard starts from your first month.
Can I see other SDCs' scores?	No. You see your rank and the region average only.
